

Bumble Bee Boat Ramp

Bumble Bee Boat Ramp is located in the 200 block of Riverfront Way just as you head west under the railroad tracks. The area incorporates just under an acre between the narrow riverfront access and the adjacent gravel lot that serves as parking. In 2021, the Reedsport Main Street Program dedicated funds to revitalize the area including new gravel for the lot, new picnic tables and viewing benches . The area also features a full-size gangway and dock, along

with a kayak launch which was placed in partnership with Travel Southern Oregon Coast. Other additions that are in the planning stage include a mural on the levee wall adjacent to the gravel lot and a new gangway and dock.

The facility is under 24/7 video surveillance.
